A CLEVER TRICK PLAYED BY JAPS

They Started the Report of 30,000 Slain.

Losses Were Something Over 2,000—
Understood That Russia Is
In Bad Straits.

REPORTS STILL CONFLICTING

London, July 15.—A dispatch from
Madden reports that the Jap losses
during the fighting on the right flank
defenses at Port Arthur July 8 to 6,
was two thousand. The Russian
losses are insignificant. The dispatch
adds that the Russians drove the Japs
back and occupied the heights com-
manding Lunan pass.

JAPANESE STARTED THE HOAX.

St. Petersburg, July 15.—When the
official Gazette published a special
edition stating that the staff here
that 30,000 Japanese had fallen in an
attack upon Port Arthur people who
dismissed such news as being false
when announced from irresponsible
sources finally believed it.

It now appears, though, that the
whole thing was a miserable hoax on
the part of the Japanese, suggested
in order to mislead General Kuropat-
kin and cause him to advance. The
consequent mortification and disgust
felt today has no limit.

To make matters worse, according
to the latest dispatches, General Oku
is seriously threatening New Ohwang
with a large force, while the Japanese
field marshal, Oyama, has taken di-
rection of the investing forces at Port
Arthur, and the best ship in the Rus-
sian navy in the far east, the Novik,
has been damaged.

It is now realized that the rainy
season as a deterrent to active opera-
tions is going to be disregarded by
the Japanese.

A BRILLIANT RETREAT.

Ta Tehe Kiao, Monday, July 11.—
(Delayed by Military Censor.)—The
Russian retreat from Kai Chou, with
the loss of only a hundred men and
the infliction of heavy losses on the
Japanese, was a brilliant feat, of
which General Kuropatkin marked his
appreciation by conferring decorations
on every officer present.

Down July 8, revealed the Japa-
nese in such force that it was neces-
sary to withdraw. The retreat was
carried out in the face of tremendous
difficulties. Only the road north swept
by the Japanese batteries and har-
ried by a clumsy conspicuous gate could
be used. Near this gate stood General
Stakeberg, directing the operations.
The Russian batteries, cleverly mask-
ed, disturbed the Japanese gunners,
and as a result their projectiles fell
short. The bombardment lasted many
hours. There was a critical moment
when the bulky commissariat wagons
had to pass the exposed, narrow gate-
way. The Japanese tried to take ad-
vantage of the situation, and repeat-
edly attacked the Russian flank, but
they were beaten off. The Japanese
began to press the rear guard, for the
majority of the Russian troops had
gone north, and Colonel Krause, with
a battery, came to the rescue. He
posted his guns near the gateway and
fired 500 rounds with terrific effect
upon the advancing masses. The
Japanese gunners first fired widely,
but finally found the range, the first
well aimed shot killing Count Nirod,
who was standing beside Colonel
Krause. The Russian guns were then
removed. Two companies still re-
maining at Kai Chou had to fight
their way north with bayonets.

Important events may be expected
near Kai Chou in a few days.

JAPS ARE SCHEMING.

London, July 15.—A dispatch from
General Sakharoff states that General
Kuroki's force is considerable dis-
tance south of Liao Yang. Other re-
ports have it that the Japanese have
occupied Yinkow, and Port New
Ohwang.

General Nodzu is known to be very
close to the Japanese force under

HERN GETS BAIL

The Amount of Bond to be Fixed
Later.

Paducah Man Who Killed His Father
Still in Jail.

Hopkinsville, Ky., July 15.—The ex-
amining trial of Mack Hern, of Pa-
ducah, who shot and killed his father,
James Hern, on July 4, took place
before Judge Fowler in the circuit
court room. The defendant took the
stand in his own behalf about noon,
and said that he shot his father be-
cause he believed his father was about
to draw a weapon with which to kill
him and that he simply acted in self-
defense. Quite a large number of wit-
nesses were heard on behalf of the
commonwealth.

After hearing the testimony Judge
Fowler dwelt on the enormity of the
crime but stated that owing to the
physical frailty of Mack Hern, and
some extenuating circumstances, he
would allow bail.

The motion as to the amount will
be argued later.

A SETBACK

PROSPECTS OF SETTLING THE
STRIKE NOT SO GOOD.

Chicago, July 15.—The prospects
for an immediate peaceful settlement
of the packers' strike was given a
setback this afternoon when President
Donnelly, of the Butchers' union, re-
jected the proposition submitted by
the packers last night. It is said the
best terms are those submitted by the
union last evening.

Armour, Swift, the National and
the Oudaby Packing company are
killing today. Armour has engaged
two hundred men and Swift one
hundred and both declare they have
all they want.

Mr. and Mrs. William Brainerd left
today for Henderson.

General Oan, and the latter is in con-
stant touch with the outposts of Gen-
eral Kuropatkin's army. These facts
point to one thing and that is the
Japanese generals have a plan in op-
eration which bodes ill for the ability of
the Russians to hold their ground.

BATTLE REPORTED.

St. Petersburg, July 15.—It is re-
ported a battle is now being fought
at Tatschekao.

MONSTER CHILD

COLORADO WOMAN AT CAIRO HAS
GIRL WITH TWO HEADS.

Cairo, Ill., July 15.—A two-headed
girl has been born in Cairo to a negro
family of the name of Shano. It died
shortly after birth. The heads were
well formed and rested on the should-
ers at about the same angle. The fea-
tures were perfect. The body was
fully matured. The child had only
one set of lungs, but it possessed two
independent necks, each windpipe fur-
nishing air for one lung.

Mr. James R. Gray went to Chi-
cago today at noon.

BODY LAY ROTTING FOR THREE DAYS

Negro's Remains Buried by
Order of Health Officer.

It Is Said That Neither the City Nor
the County Would
Bury Body.

A MOST REVOLTING CASE

The body of Fred Ray, colored,
aged 78, after rotting three days in a
house near Ninth and Caldwell street,
was buried today in potters' field as
the culmination of one of the most re-
volting cases of negligence on record.
The body was then buried on an
order furnished to Andy Watkins, the
colored undertaker, by Health Officer
W. T. Graves, who assumed liability
for the debt in case the city and
county refuse to pay it when the
undertaker presents the bill.

Ray died three days ago from
dropsy after a long illness, which had
made quick and effective inroads into
his slender means. He had an aged
wife, but both had been helpless for
weeks.

After the old man's death there
were no funds with which to bury
him. Some of the colored people at-
tempted to raise a subscription, it is
said, but failed to make up enough to
bury him.

It is alleged that both the mayor
and the county judge were appealed
to for an order to bury the remains
and both refused. The claim has been
made for some months that the funds
for burying paupers has been ex-
hausted.

Friends having no money with
which to pay the funeral expenses,
and being denied an order by both
city and county, the body lay there in
the house rotting.

The city physician referred them to
Health Officer Graves. Dr. Graves
viewed this morning the remains and
immediately issued the order of
burial, saying that public health as
well as simple humanity justified it,
and that he would rather pay the ex-
penses out of his own pocket, if
necessary, than to have such a thing
exist in a civilized community.

Health Officer Graves stated that
he knew nothing about the city or
county refusing to bury the body,
but did know that it ought to have
been buried immediately after death,
instead of being kept two or three
days in this kind of weather.

SERIOUS FAMINE

IS THREATENED IN SOUTHERN
RUSSIA.

Berlin, July 15.—A newspaper
here states that the official statistics
of the condition of crops show that
a famine is inevitable throughout
Southern Russia. Famine conditions,
the paper says, already exists in
Kherzon, Bessarabia, Tauria Poltava
and Kharikov, where corn and ty-
phoid are also prevailing.

BETTER TRADE

INDICATIONS ARE THAT FALL
BUSINESS WILL BE FINE.

New York, July 15.—Advice re-
ceived from correspondents of the In-
ternational Mercantile Agency in the
chief commercial centers of the con-
try, indicate that apart from the usual
summer dullness it is evidence of a
better fall trade that merchants are
planning for.

PRES. KRUGER

WILL BE BURIED IN HIS OWN
COUNTRY.

London, July 15.—The Central
News reports that at a council in
Buckingham Palace this morning it
was decided to grant permission to
bury former President Kruger in the
Transvaal.

HEAVY GUARD NOW ABOUT STOCK YARD

Fearful Many Others Will Be
Called Out Saturday.

Another Effort Will Be Made Today
to Settle Strike at Packing
Houses.

CONFERENCE AT OYSTER BAY

Chicago, July 15.—Fearing trouble
the police guard about the stock yards
was increased today by heavy detach-
ments. Another meeting will be held
this afternoon in an attempt to bring
the strike to a close. If it is not set-
tled, it is believed all the mechanical
trades at the yards will be called out
Saturday.

IMPORTANT CONFERENCE.

Oyster Bay, July 15.—Senator
Platt, of New York, is conferring
with President Roosevelt today.
State and national politics is under
discussion, but the senator refused to
discuss his visit.

INGORROTATES ARE HAPPY.

Washington, July 15.—The presi-
dent has rescinded the order that the
Ingorrotates from the Philippines at the
World's Fair must wear trousers.
They objected strenuously and the
president was assured that their at-
titude was not immodest, hence the
order was rescinded.

DEBS ON DAVIS

GIVES PART OF THE DEMO-
CRATIC TICKET SOME
HARD RAPS.

Terre Haute, Ind., July 15.—En-
gineer V. Debs, social candidate for
president, says:
"Organized labor has no more im-
promising enemy than Henry G.
Davis, who charges union labor with
being a criminal conspiracy, and does
not permit his employees to belong to
a trade union. When the United Mine
Workers were conducting a strike in
West Virginia I went there at the re-
quest of and with United Mine Work-
ers' officials. We were enjoined by
United States Judge Jackson from
even leaving our boarding house.
Henry G. Davis was mainly instru-
mental in having this done. He is the
very incarnation of an old-time slave
driver."

"As to Parker, he is merely the
personal candidate of John D. Rooke-
feller. Six weeks ago William J.
Bryan said that no self-respecting
Democrat could support Judge Parker,
the tool of the trusts and of the
money power. Mr. Bryan is now sup-
porting him and in so doing is pro-
claiming himself a political degener-
ate."

SHRINERS ACTIVE.

TEN THOUSAND DELEGATES PUT
IN VERY COMPLETE DAY AT
ATLANTIC CITY.

Atlantic City, N. J., July 15.—
Strenuous activity was the feature of
the opening session of the Mystic
Shrine here at the 10,000 or more
members unrobed in two parades,
banqueted, indulged in a trip on the
ocean, transacted considerable busi-
ness in the conference of delegates and
wound up the day by attending a so-
cial session at the Elks Hall.

Mayor Stoy, wearing the red fez of
the shriners, represented Imperial Po-
tente George H. Gene, of Dallas,
Texas, with a gilded key at the open-
ing of the convention.

Louisville, July 15.—W. D. Wilson,
87 years of age, the oldest steamboat
engineer around the Falls City, is
dead. Captain Wilson in his prime
was known from Pittsburgh to New
Orleans, and was at various times
engineer on some of the most noted
craft that plied the Ohio and Missis-
sippi rivers.

I. C. DISPATCHERS TO MOVE AGAIN

They Will Be Sent to Their First
Love, 11th and Broadway.

The Postal Telegraph Department
Receives Order of Removal
This Morning.

CHANGES IN THE HOSPITAL

The local dispatchers office of the
Illinois Central is to be moved again.
It was originally at 11th and Broad-
way, later at Sixth and Campbell in
what was then the new union depot,
subsequently back at 11th and Broad-
way, and is now located in a new
building erected for it on the Mem-
phis division, where it has been for
the past three or four years. It is
now to be moved back to 11th and
Broadway, in the old building that
was its home for so many years. It is
likely that the structure, which has
not been used by the Illinois Central
for several years, will be put in con-
dition and utilized for the master me-
chanic's, and possibly other offices.

The movements of several of the
high I. C. officials, which have contin-
ued about Paducah for the past two
weeks, will result in the removal of
the dispatching offices.

For over a year local officials have
attempted to secure the removal of
the offices to a more desirable and
convenient location, but all attempts
proved futile. Officials have been
convinced now that something like
\$200 a month can be saved by moving
the offices and the higher officials
after due investigation, have left the
matter in the hands of Mr. H. Mc-
Court, assistant general superintendent
of southern lines of the road,
who has always been in favor of the
removal. Mr. McCourt has probably
already given the order for removal,
as Superintendent of Telegraph of this
division Mr. J. W. O'Bryan, of the
Postal Telegraph company, has re-
ceived orders to transfer the telegraph
instruments, but the date of transfer
is left to the convenience of the local
dispatching force. Mr. Bryan is now
getting ready to make the transfer.

This is the first step to consolidate
the local offices of the master me-
chanic and road officials and it is ex-
pected the master mechanic will have
an office fitted up in the same build-
ing, resigning his present quarters to
the store room and tin shop. This will
bring the officials, who are closely
connected in their duties and should
have offices adjacent, more in touch
with each other and it is believed
will add much to the efficiency of the
general service.

The old freight office has been out
of use for the past several years and
will need many repairs, but the work
will begin at once. It is undecided
whether the yard officials will be re-
moved with the dispatchers, but it is
presumed they will, their work being
closely associated with the dis-
patchers.

Mr. McCourt in his recent stay here
during the trouble with the boiler-
makers, had an opportunity to per-
sonally see the inconvenience and draw-
backs caused by the present location
of the dispatching offices and it is
probable then decided on the change.

Dr. John Owen, of Chicago, chief
surgeon of the I. C. road, left for Chi-
cago last night after a visit of inspec-
tion of the local I. C. hospital. Dr.
Owen approves a plan of Dr. D. G.
Murrell, chief surgeon of the division
of P. O. touching Paducah, to build a
fumigating plant at the hospital
here. It will cost about \$3500. It is
probable that the fence surrounding
the building will be replaced with
stone coping. There is some hesitation
about this on account of stock run-
ning at large, and it may be post-
poned until a stock law is enforced.

Rev. J. H. Ballance, of Hard Money,
was in the city today. He is suffer-
ing from an abscess on his hand and
came here to have it treated by Dr.
Hall.

THE BALL PLAYERS GO ON A STRIKE

Long Expected Trouble in Pa-
ducah Club Comes.

Effort to Replace Freeman and
Brady Is Said to Be the
Cause.

ONLY FOUR PLAYERS REPORT

The long-threatened upheaval in
the Paducah K. I. T. baseball club
seems to have arrived. For some
time it has been gradually coming,
but was warded off from time to time
by the skin of the teeth, as it were.
This afternoon the prospect is that
there will be no game of ball at Lengua
park.

The third game with Olarkville is
scheduled to come off, but most of the
players were in town in street clothes
at 3 o'clock, and declared they would
not play.

The members have apparently been
disaffected for sometime. When Gilli-
gun was suspended they threatened to
quit, and many of them became "sore"
when Land was suspended. It was
plain that trouble was in store for the
local management, and it came to-
day. The exact and direct causes are
not clear, but the main reason seems
to be the claim that President Sam
Jackson, of the Paducah Association,
wants to release Freeman and Brady
and get two cheap men.

Freeman went to Nashville in the
Southern League for fourteen days
and Fisher agreed to pay him \$150
per month as long as he kept him. At
the end of the fourteenth day he paid
Freeman off with a check for \$75 and
today it is alleged Freeman went after
money due him here and Jackson
wanted to hold out a portion of it,
saying that Fisher had paid over his
salary in the Kitty League, \$125 per
month, and wanted to hold out the
difference.

It is said Freeman asked if he
"wanted to take his money away from
him," and President Jackson is al-
leged to have said, "do you mean to
insult me in the presence of my wife,"
and made a dive for a drawer as if to
produce a weapon. Freeman left the
house.

Brady claims that Manager Ray in-
formed him that Mr. Jackson wanted
to cut his salary from \$125 per month
because he could get two men for \$50
per month.

This aroused the sympathy of some
of the others who refused to go out
this afternoon. At press time only
four of the regular players signified
any intention to go out and report for
duty.—Harley, Brablie, Sherman and
Potts. These, it was said, had not
been paid off, and when they get their
money would also "strike."

President Jackson was at the ball
park selling tickets, and could not be
interviewed relative to the situation.
It was said, however, that the trouble
might be straightened out by tomor-
row and the boys get back in the
game.

BAD FIRE AT EVANSVILLE.

Evansville, Ind., July 15.—The
Evansville pressed brick plant suffered
heavy damage from fire. The ma-
chinery was ruined and the loss is
several thousand dollars. It is in-
sured.

Mr. Sam Leibel, who was shot by
William Jones several days ago, is
improving, but will be unable to leave
his room for two weeks, according to
his physicians.

SCROFULA

Swollen glands, tumors, white swellings, sores, pustular or scaly skin eruptions, flabby muscles, brittle bones, weak digestion, emaciated, ill-nourished bodies, are some of the well known earmarks of Scrofula. Scrofula is inherited. Parents too closely related by the ties of blood, or tainted with consumption or blood poison, may look for signs of Scrofula in their children. The middle-aged often have it, but children are the chief sufferers. Scrofula breaks down the vital forces, and the blood becomes so weak and poor that it does not nourish the body. The remedy in all scrofulous affections must be one that purifies the diseased blood, builds up the weak digestion, increases the appetite and gives new energy and strength to all life's forces. No medicine has won so much fame as a blood purifier as S. S. S., and its tonic effects upon the system are not equaled by any other remedy. It makes the weak, tainted blood rich and strong, and drives out of the circulation all tubercular deposits and morbid matter that cause the glandular swelling, sores, abscesses, tumors and other horrible symptoms that make Scrofula so dreaded and dangerous.

I inherited Scrofula from my parents, and this means, of course, weak, impure blood and a run-down, debilitated condition of the system. I have been under treatment of physicians for quite a period at different times, but their treatment did not do me anything like the good S. S. S. did last winter when I took it. It promotes appetite and the general health in every way, and in addition to being an excellent blood purifier, it adds to me more than any thing I have used, and with pleasure I commend it.

ITALIAN KILLED

Man Worn Out from Fatigue Struck by a Train.

Every Bone Broken and Death Came Instantaneously.

Antonio Fadola, an Italian about 30 years of age, who had been working for the Bates and Rogers contracting firm which is doing some of the work on the Tennessee river bridge, was struck by the Hopkinsville accommodation train which left here at 7:40 o'clock last night over the I. C. and instantly killed. The accident occurred near Stillers, nine miles from Paducah and resulted evidently from the man's going to sleep on the track. He was not seen by Engineer Ambrose Mercer until the engine was close on him. The whistle did not apparently arouse him, and Engineer Mercer was unable to stop until the train and gone some distance past.

The body was badly mutilated, nearly every bone being broken. The man was brought to the city on the first train coming this way, and taken to the Mattell, Effinger establishment. He had \$36.45 in money. His clothing indicated that he was a laborer used to working in all sorts of climates, as his wardrobe included an overcoat.

Justice Jesse Young this morning held an inquest over the remains and the verdict of the jury was that the deceased was killed by the train, no responsibility being fixed.

It is not known what the man was doing on the track or whether the name above was his or not, but the name is the one that was on the envelope containing his money. He was probably tired from a long walk and was asleep when struck. The remains will be buried here.

Y. M. C. A. RECEPTION TO NEW SECRETARY LARGELY ATTENDED.

The reception given at the Y. M. C. A. building last night, introducing the new secretary of the association, Mr. U. S. Duncan, who arrived a few days ago from Chicago, was a very successful and pleasing function. About 100 guests, including Paducah's most prominent people, were in attendance.

The woman's committee, who gave the reception, were assisted in receiving by members of the board of directors, and some of the young society women of the city. A delightful informal musical program was rendered and refreshments were served.

O. L. Morehead was fined \$100 and sentenced to thirty days in jail at Louisville by Judge McCann for "mashing."

ILLINOIS GAME LAW Hayes' Beechwood Emulso-Hypo With Iron

Makes Fat, Strength, Blood, Bone and Muscle.

STILL IN DOUBT—WHAT IS IT THAT IS CONSTITUTIONAL?

Local sportsmen are not satisfied in regard to the claim that a license must be paid to hunt in Illinois. The Illinois papers a short time ago published a statement that the supreme court at Springfield had knocked out the new law requiring a license to hunt, and Prof. John Dean of Paducah, wrote to the game commissioner at Springfield asking if the "game law" had been declared unconstitutional, receiving a reply that it had not been. As the two laws may be separate, however, or only the license provision knocked out, local hunters will make further investigation before acting.

Some think that possibly the "game law" has nothing to do with the license regulation, and that the commissioner didn't understand what the Kentuckian wanted to know.

FIFTY YEARS OF REPUBLICAN-
ISM.

While the leaders of Democracy are industriously abusing the Republican party, the leaders of Republicanism are quietly preparing for one of the greatest victories in the Republican party's history.

The great men of the nation are Republicans. The few able men in the Democratic party have been forced into a back seat for eight years by the shallow, blatant demagogues who do little but talk, until last week when they got to the front by trickery. The "captains of industry" of the United States, the great statesmen, the great financiers, the great railroad men, the great manufacturers—in short, those whose names stand out prominently before the world,—how many of them confess to being Democrats? Very few, if any.

At the recent celebration at Jackson, Mich., of the fiftieth anniversary of the Republican party's birth, many notable addresses were made. Much of these addresses, both laudatory and prophetic, are worthy of a place in history.

Senator Charles W. Fairbanks, Republican nominee for vice president said:

"The Republican party was born of the conscience of the people, and it was here dedicated to as high and holy a service as ever summoned men to heroic duty.

"It has given security and protection to capital and labor. It has been the wise and loyal friend of each.

"No duty has been laid upon it, no matter how sudden or grave, but that it has met it wisely and bravely.

"It has never capitulated to mere expediency nor made a truce with wrong.

"It has stood against socialist tendencies and opposed those malignant teachings which would establish class distinction."

Secretary of State John Hay asserted:

"The Republican party in the mass and in detail has shown its capacity to govern. By persistent honesty in our finances—in the face of obstacles which might have daunted the hardest statesmen—it has reduced our interest charges so that in any mart on earth we can borrow money

cheaper than any other people.

"By persistent adherence to the policy of protection we have given to our industries a development which the fathers of the republic never dreamed of and history affords no parallel in the vast and increasing prosperity which this country has enjoyed under Republican rule."

United States Senator Russell A. Alger declared:

"Fifty years ago today, here, under the oak, guided by the great stalwarts, Chandler, Howard, Blair, Bingham, and others, an idea took root which culminated in the formation of a party destined to stand the invincible champion of freedom and protection, of unity and of prosperity.

"Fifty years ago the American flag was accorded either slight courtesy or treated with contempt by the world powers. Today the stars and stripes sail majestically around the globe and are saluted in every port as is no other flag. Fifty years ago the United States was entirely ignored when war conferences between nations were being held.

"Republican wisdom, given expression either in thought or action, has rescued the nation from this inglorious position and raised it to one of power and influence, the envy of every country on the globe."

These are among the many good and true things said by some of the nation's ablest men. They but echo the convictions of a majority of the country's people, a people who do not and will not heed the vacuous oratory of forlorn, untrusting Democracy.

The Fulton Commercial complains: "From what we regard as a reliable source we learn that our great Illinois Central railroad carries coal to Milan and Jackson, Tenn., for \$1.20 per ton, while they charge \$1.50 per ton to haul it to Fulton. This coal is hauled right through Fulton to the south, and for 30 cents less on the ton than they charge to stop it here in our town." But pshaw! That's nothing. Last month it cost about \$8.60 a round trip to St. Louis from Paducah while by spending a quarter and going to Metropolis, Ill., you could get a ticket there for \$4.90 a round trip. And it is claimed that in many instances it is cheaper to ship goods east and north from Cairo, Ill., than from Paducah, fifty or more miles nearer the destination of the goods, and likewise costs Paducah merchants more to get goods from the east than it does merchants at Cairo, fifty miles further away. But in justice to the railroad company it should be said that this is due largely to the competition for business of various railroads entering a city. What Paducah needs is more railroads to relieve the situation.

Even the Democrats admit that Mr. Bryan will help defeat the Democratic ticket. The Courier-Journal, which now claims to be the "first and oldest" Democratic organ, says of Mr. Bryan's statement: "As soon as the election is over I shall, with the help of those who believe as I do, undertake to organize for the campaign of 1908." This is merely corroborative of what the Courier-Journal has already said—that it is the wish of Mr. Bryan that Parker and Davis shall be defeated, and badly defeated. That accomplished, it is Mr. Bryan's hope that the party will again turn to him for its nominee in 1908. Mr. Bryan will vote for the ticket he desires, but only for the purpose of "regularity."

It is very true that in a few years the people of Paducah will fully appreciate the need of public parks, but the present time is not "a few years from now." The people appreciate the need right now of better sanitation, more attention to public safety

and welfare, and a good many other more important things that city officials are not devoting half the attention to that they are to the park question.

Mr. Bryan at least adopted a good way to keep from having to make speeches for the Democratic ticket. Since the elaborate statement of his position, members of the Democratic National Committee have decided that it is not desirable to have him take the stump for the ticket. The reason is that "he would do the ticket more harm than good."

The Owensboro Inquirer, sometimes Democratic, says of Kentucky's delegation to the recent Democratic National Convention: "With one or two exceptions the delegates to the convention were a lot of skates. They did nothing that was not foolish from start to finish and marked themselves down as the smallest set that ever went out of the state with any hope of getting back."

Up in Wall Street they do not believe very strongly in Parker's chances as they will not bet unless they get 2 to 1 odds, and few want the Democratic end of it at any odds.

They are still convicting bootleggers over in St. Louis for accepting bribes, but strange to say they have never yet found anyone to convict for giving the bribes.

The strenuous requirements of the park question prevents the city from covering up the open wells, cleaning the gutters and keeping sand piles out of the street.

Possibly Mr. Bryan expects that there will not be any of the Democratic party left after the election except Bryanites.

The Democrats may have a little more money this year, but they haven't any more votes than usual.

Mr. Hearst need not be discouraged. He still stands as good a chance to be elected president as Judge Parker.

It is reported that the southern states will go Democratic in November.

BAD WIRING

Caused Two Fires in Paducah in 24 Hours.

Blaze in the Store Room at Hotel Lagomarsino Extinguished.

One of the colored employees at Hotel Lagomarsino smelled smoke as he passed the store room on the elevator about 8 o'clock this morning. He made an investigation and found the woodwork about the electric light wires on fire, the blaze being between the floor above and the steel ceiling. The store room is near the elevator, just over the first floor, in the northern end of the building.

The fire department was notified by telephone and tore down the ceiling, extinguishing the blaze before it had done any damage of consequence. A similar blaze was discovered a few feet away in the store room about two weeks ago and extinguished.

Fortunately both were discovered in the day time. If the fire had occurred at night there might have been a serious conflagration.

Mr. Lagomarsino later made a fuller investigation and was convinced that the blaze originated from the heat from the kitchen range, the bottom of which is directly over the place where the fire was discovered in the store room. The fire melted or burned the insulation from the wires and at first made it appear as if the wires caused the fire.

Last night about 10 o'clock the Central fire department was called to the George H. Goodman's wholesale whiskey house on South Second street, where a wooden shed in front of the building was burning. The fire originated from an electric arc light hanging under the shed or awning and Captain John Slaughter and several firemen went down with a small hook apparatus and with it and a pump extinguished the blaze.

Chief Wood and the firemen express their appreciation and gratitude towards Councilman John Rebkopf for the present he made them yesterday in the shape of a buggy and harness. The firemen performed excellent work on the Rebkopf house, and such recognition of their services encourage the firemen, who do not always get the credit due them.

Two shanties in Doughton burned yesterday afternoon late.

Theatrical Notes.

The park continues to attract large crowds and the performances at the Casino under the management of Manager Arthur Van are first class and very pleasing to the patrons of the theater. The bill will be changed as often as deemed advisable.

The Swallow & Markle Floating show at the wharf draw a large crowd last night. It is fairly good of its kind.

Owensboro is to have a new theater. Manager Peley, of the "opera house" there now, is to build it, and the public is to assist by purchasing 1,000 tickets at \$10 each.

Paducah is certainly getting her share of floating shows this summer. Several years there didn't but two come here, French's and Eugene Robinson's. This year French's, and Swallow & Markle have already been here, and the Eisenbarth & Harth is at Henderson due down, Price's Floating Water Queen is at Mt. Vernon, Ind. due down in a few days, and the water circus is billed for Monday, but at last reports was still tied up at Owensboro, and had not reached Evansville yesterday.

Miss Alma Hayes is expected tomorrow or Monday from Chicago to spend the summer with her parents.

Mr. H. Miller Cunningham, the local composer, went to St. Louis last night to meet Herbert Clark, the celebrated cornet virtuoso, who has become interested in Mr. Cunningham and his compositions. Mr. Cunningham has composed several excellent marches and waltzes which Mr. Clark says are far above the average composition, and asked Mr. Cunningham to come over and see him personally.

The Blazed Trail

By STEWART EDWARD WHITE

Copyright, 1903, by Stewart Edward White

Thorpe himself, of course, made his headquarters at Camp One. During the five years he had never crossed the trail of Mackinac. The rupture with his sister had made repugnance to him all the southern country. All winter long he was more than busy at his logging. Summers he spent at the mill. Occasionally he visited Marquette, but always on business.

He was happy because he was too busy to be anything else. The instant need of success which he had created for himself absorbed all other thoughts. He demanded it of others rigorously. He could do no less than demand it of himself. The chief end of any man, as he saw it, was to do well and successfully what his life found ready.

Success, success, success. Nothing could be of more importance. His attainment argued a man's efficiency in the scheme of things. Anything that interfered with it—personal comfort, inclination, affection, desire, love of ease, individual liking—was bad.

Thorpe cared for just three people and none of them happened to clash with his machine. They were Wallace Carpenter, little Phil and Injun Charley.

Wallace was always personally agreeable to Thorpe. Lately, since the erection of the mill, he had developed unexpected notions in the disposal of the season's cut to which the lumberman would have been loath to assent. In the woods he had for pleasure and to get his partner's ideas on what the firm would have to do. The entire responsibility of the city end of the business was in his hands.

Injun Charley continued to hunt and trap in the country round about. Once or twice a month the lumberman would send down to the little cabin at the forks. Entering, he would not briefly and seat himself on a crackling log.

"How do, Charley?" said he.

"How do?" replied Charley.

They filled pipes and smoked. At rare intervals one of them made a remark.

"Catch me a henner last week," remarked Injun.

"Good hunt," commented Thorpe.

"I saw a mink track by the big bowl der," offered Thorpe.

"Hut!" responded Charley in a long drawn falsetto wail.

Yet somehow the men came to know each other better and better, and each felt that in an emergency he could depend on the other to the uttermost in spite of the difference in race.

As for Phil, he was like some strange, shy animal, retaining all its wild instincts, but led by affection to become domestic. He drew the water, cut the wood—none better. In the evening he played atrociously his violin—none worse handling his great white-brow forward with the wolf glare in his eyes, swaying his shoulders with a drowsy delight in the subtle dissonances of the horrible tunes he played. And often he went into the forest and gazed wondering at silent things. Above all he worshiped Thorpe. And in turn the lumberman accorded him a good natured affection.

Financially the company was rated high and yet was heavily in debt. This condition of affairs by no means constituted an anomaly in the lumbering business.

The profits of the first five years had been immediately re-invested in the business. Thorpe intended to establish in a few years more a big plant which would be returning him in proportion not only to the capital originally invested, but also in ratio to the energy, time and genius he had himself expended.

Every autumn the company found itself suddenly in easy circumstances. At any moment that Thorpe had chosen to be content with the progress made he could have, so to speak, declared dividends with his partner. Instead of undertaking more improvements, for part of which he borrowed some money, he could have divided the profits of the season's cut. But this he was not yet ready to do.

He had established five more camps; he had acquired over 150,000,000 more of timber lying contiguous to his own; he had built and equipped a modern high efficiency mill; he had constructed a harbor breakwater and the necessary booms; he had bought a tug; built a boarding house. All this cost money. He wished now to construct a logging railroad. Then he promised himself and Wallace that they would be ready to commence paying operations. He had made all the estimates and even the preliminary survey. He was therefore the more grievously disappointed when Wallace Carpenter made it impossible for him to do so.

It was about the middle of July. He was sitting back idly in the clean painted mill office with the big square desk and the three chairs. Through the door he could see Collins perched on a high stool before the shelf like desk. From the open window came the clear, mellow note of the circular saw, the fresh, aromatic smell of new lumber, the branching air from superior sparkling in the office. He felt tired. In rare moments such as these, when the miseries of his striving relaxed, his mind turned to the past. Old sorrows

rose before him and looked at him with their old eyes. He wondered where his sister was. She would be twenty-two years old now. A tenderness, haunting, fearful, invaded his heart. At such moments the hard shell of his rough woods life seemed to rend apart. He longed with a great longing for sympathy, for love.

The outer door, beyond the cage behind which Collins and his staff desk were placed, flew open. Thorpe heard a brief greeting, and Wallace Carpenter stood before him.

"Why, Wallace, I didn't know you were coming," began Thorpe, and stopped. The boy, usually so fresh and happily buoyant, looked ten years old or Wrinkles had gathered between his eyes. "Why, what's the matter?" cried Thorpe.

COLONEL W. B. KENNEDY DID NOT GET TO FINISH HIS FISH STORY.

Colonel W. B. Kennedy yesterday gathered an interesting host of listeners about him, while he embellished a fishing yarn down at Lang's drug store.

While turning a serious point in the story he suddenly stopped, stared a second at his surprised audience only a second—then "there was something doing." He hastily rushed a hand into his pantaloons pocket and with increased haste "fished" forth a "handful" of burning matches, which he scattered across the room in his rapid withdrawal, filling the room with the odor of burned snaphair and cotton-made breeches.

The sequel to the fishing story will be given his hearers at the next sitting—minus the pantomime act. Unfortunately, there were no persons around the store who wore garments large enough for Mr. Kennedy, and he was detained until his friends fit him out with new trousers.

HEALTHY MOTHERS.

Mother should always keep in good bodily health. They owe it to their children. Yet it is no unusual sight to see a mother, with babe in arms, coughing violently and exhibiting all the symptoms of a consumptive tendency. And why should this dangerous condition exist, dangerous alike to mother and child, when Dr. Boech's German Syrup would put a stop to it at once? No mother should be without this old and tried remedy in the house—for its timely use will promptly cure any lung, throat or bronchial trouble in herself or her children. The worst cough or cold can be speedily cured by German Syrup; so can hoarseness and congestion of the bronchial tubes. It makes expectoration easy, and gives instant relief and refreshing rest to the cough-racked consumptive. New trial bottles 25c; large size 75c. At DuBois, Kolb & Co.

PADUCAH MAN SAW FAIR FOR ONLY \$8

Mr. M. G. Sale, of Paducah, Tells How He Did It.

Saw All He Wanted to See at Very Moderate Cost, He Declares.

HIS BOARD COST HIM ONLY \$2

How to see the world's fair on \$8 a week has been successfully demonstrated by Mr. M. G. Sale, of 408 South Fifth, Paducah. Mr. Sale is a well known carpenter in the local I. C. shops.

Mr. Sale was seen by a Sun reporter this morning and outlined his methods of economy, and is only too glad to help those with what information he is able to give in seeing what they considered too expensive to risk. He said:

"I informed my friends here that I would see much of what there was worth seeing at the fair and spend less money than they did at home, and I have done it. My expenses in St. Louis for one week amounted to but \$8, this including board and lodgings and car fare. My trip was made on a company pass, complimentary, but the railroad fare is not excessive, and for less than \$15 one can go and remain in St. Louis a week and see all he wants to look at. I got lodgings for \$2 a week and was nicely accommodated. My meals cost from 15 to 25 cents each and were just as good as those served in large hotels. I went through all exhibits and state buildings, which costs nothing, but did not go on 'The Pike' where the shows are. These shows, to my mind, amount to little and are largely graft auxiliaries to the fair. Since my return I have been giving references to shop men who want to attend the fair on an economical plan, and I think I have done my landlady in St. Louis a very good turn in throwing her so much patronage."

Mr. Sale is a man of modest manner and does not give himself credit for doing anything more than what may be accomplished by others.

"The same thing is being done every day in St. Louis," he said.

"A person may spend as much as he likes or as little as he likes. Many pay large prices for meals that are no better than the 15 and 25 cent ones—because it is more stylish, I presume, or because for appearance sake. If one really wants to see the fair cheap and is not ashamed to do it, he will find it an easy matter."

A BOY DROWNED.

Sunday afternoon Virgil, the 12-year old son of Mr. and Mrs. John Neese, went down to the Tulewater with several boys to bathe. Virgil could not swim at all nor could any of his little companions, who stayed on the bank, while Virgil went into the water. After taking a few steps in the water he stepped out beyond his depth and drowned.—Princeton Chronicle.

NO DECISION

Railroad Commissioners Finish Evidence at Grand River.

There Will Probably Be No Change in the Assessment.

Railroad Commissioners McD. Ferguson and O. C. McChord returned yesterday afternoon from Grand River, Ky., after hearing evidence in the contest case between Lyon, Marshall and Livingston counties over the jurisdiction boundary line, each county wanting to get as much of the Illinois Central bridge assessments as possible. The commissioners reached no decision yesterday and went down the Cairo extension of the road last night on business.

In speaking of the evidence and the contention of the three counties, one commissioner stated: "Lyon and Livingston counties are contending over Cumberland river bridge, while Livingston and Marshall counties are contending over Tennessee river bridge. There was much evidence and we went over all the old and new provisions of the legislature relative to such taxation, but the case is still not clear. Our decision will not be reached until after the elections in the counties. I think it will probably be announced by the assessment. We will make the assessment, which in itself will be the decision. From all indications I think there will be no change in the assessment."

Commissioner Siler was absent from the meeting but the evidence will be submitted to him in briefs. It is necessary for all three commissioners to pass on the case. The assessment of the I. C. is fixed at \$19,000 per mile and even if Livingston county got the mile of road she is after, would gain little. The state tax is only 50 cents on the \$100 and the county tax less than \$1.00 on the \$100.

PARKER CLUB TONIGHT.

A meeting will be held at the city hall tonight to form a Parker and Davis club in Paducah. It is probable the usual professional spellbinders and chronic office seekers will be on hand, however.

O. G. Higbee, Danville, Ill., writes, Dec. 2, 1901: "About two years ago I was laid up for four months with rheumatism. I tried Ballard's Snow Liniment; one bottle cured me. I can cheerfully recommend it to all suffering from like affliction." 25c, 50c, \$1. Sold by DuBois, Kolb & Co., Paducah, Ky.
